Professional Summary

Senior Fullstack Developer with 11+ years of experience designing, building, and maintaining scalable web applications and enterprise SaaS platforms. Strong expertise in JavaScript and TypeScript ecosystems, cloud infrastructure (AWS), and modern frontend frameworks. Proven ability to contribute in fast-paced international environments, lead technical initiatives, facilitate agile ceremonies, and mentor team members.

Technical Skills

Languages: JavaScript, TypeScript, HTML, CSS, PHP, Java

Frontend: React, Vue.js, Tailwind CSS, Bootstrap, Material UI

Backend: Node.js, Express, Agenda, Passport

Databases: MongoDB, SQL, NoSQL, Event-Driven Architectures

Testing: Playwright, Jest, Ava

Cloud & Infrastructure: AWS, Terraform, CloudWatch, EventBridge, New Relic

DevOps & Tools: Git (GitHub, GitLab, Bitbucket), Docker, Kubernetes, Jira, ClickUp, Asana

AI & Automation: Copilot, Cursor, Coderabbit, Dependabot

Professional Experience

Senior Fullstack Developer – Benevity | 2021 – Present

- Developed and maintained a high-concurrency, multi-tenant SaaS platform serving thousands of users globally.
- Led the migration of a large legacy JavaScript codebase to TypeScript, improving maintainability and reliability.
- Designed and implemented features end-to-end, from frontend to service-layer architecture and database design.
- Modernized UI styling to align with current frontend standards.
- Facilitated agile ceremonies and onboarded new team members.

Fullstack Developer – eDreams ODIGEO | 2016 – 2021

- Built and maintained backend services with Node.js and contributed to frontend development.
- Developed internal tools to automate call-center workflows.
- Created and maintained multiple microservices consumed by internal and external systems.
- Integrated REST and SOAP APIs including Salesforce Marketing Cloud and Genesys Cloud.
- Delivered multi-channel communication features (SMS, email, push notifications, voice calls).

Fullstack Developer – Clintu | 2016

- Maintained and enhanced a Laravel and AngularJS application.
- Led database migration from MySQL to MongoDB.
- Upgraded backend services to Node.js and assumed software analysis responsibilities.

Android & AngularJS Developer – Accenture Spain | 2014 – 2016

- Developed native and hybrid mobile applications using Android and AngularJS.
- Worked across projects in banking, healthcare, fashion, and legal sectors.
- Consumed REST and SOAP services and participated in the full development lifecycle.

Education

- DAM – Multimedia Applications Development
- DAW – Web Applications Development
- ESI – Computing Systems Technician
